Computer Games				
<p>Computer games categories have been streamlined from six to four – all the categories remain the same with the exception of the Assessed Computer Game category. For consistency with the Act and clarity for applicants, the Assessed Computer Game category replaces the three separate categories that related to applications accompanied by an authorised assessor’s report. Only games that, in the opinion of the applicant, would be classified G, PG or M are eligible to be submitted under this fee category. Games that may be classified MA 15+ or above must be submitted under one of the other games fee categories.</p>
